

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION I

J.F. KENNEDY FEDERAL BUILDING, BOSTON, MASSACHUSETTS 02203-2211

January 22, 1991

Ms. Janet Waldron
Division of Hazardous Waste
Department of Environmental Protection
One Winter Street, Fifth Floor
Boston, MA 02108

Dear Janet:

I have looked into the CERCLIS errors that you mentioned to me during our conversation this morning and would like you to know that I have requested corrections to be made. Specifically, the Shaffer Lf. site in Billerica (MAD980915862) will be assigned a NFRAP designation due to the fact that this site is being addressed as part of the Iron Horse Park NPL site. The listing for the Shaffer Landfill will, however, remain in CERCLIS.

The Site Inspection for Morse Shoe in Brockton (MAD985276161) should have been entered into CERCLIS as complete per my October 25th letter. I have requested that this correction be made, and that the site be flagged for continued investigation under CERCLA.

The Magnus Co. Inc. site in Fitchburg (MAD980520779) was previously identified as a NFRAP site due to the absence of, or reason to suspect a release of hazardous materials onsite (No Waste). I have requested that this NFRAP designation be added to CERCLIS.

The street address for the Property site in Sandwich (MAD985288059) will be corrected to read, "J Braden Thompson Road."

As we also discussed, I have received a number of State MSCA reports over the past two months which await EPA review. Unfortunately, I have been unable to devote my full attention to a prompt review of these deliverables. However, I hope to begin reviews of most of these products in the near future. For your information, I would like to provide you with a listing of the State products which I have received, and which await my review.

Preliminary Assessment Reports:

Titeflex	Springfield	Draft
Westfield Gas & Ele.	Westfield	Draft
Crane Co. Disposal	Springfield	Draft

Val-Ken Machine Corp.	N. Reading	Draft
Cumberland Farms	Canton	Draft
MCI Bridgewater	Bridgewater	Final
Microwave Associates	Burlington	Draft

I have spoken with the Massachusetts RCRA Section Chief, Gary Gosbee, about the RCRA status of the ATF Davidson site in Northbridge (MAD046128559). Gary is reviewing the EPA files, including the information provided by Don Hanson, and will get back to me as quickly as possible with his recommendations on how to proceed. I will contact Don as soon as we make a decision.

If you have any questions or comments, I may be reached at 573-9697.

Sincerely,

Nancy Smith
